How to Write Repeated Addition?

Multiplication is repeated addition. Multiplying 3 by 5 means adding 5 **three** times.

$$3 \cdot 5 = 5 + 5 + 5 = 15$$

There are two common symbols for multiplication: () and ().

Since (\times) symbol is similar to the letter "x", we prefer usage of (\cdot) .

Example 3: Write the following addition as multiplication: 5 + 5 + 5.

$$5 + 5 + 5 = 3 \cdot 5$$

Read $3 \cdot 5$ as "three times five".

Practice 5: Write the following sums as multiplications. Use the symbol \cdot to denote multiplication.

- a) $1 + 1 + 1 + 1 = 4 \cdot 1$
- b) $2 + 2 + 2 = 3 \cdot 2$
- c) $3 + 3 + 3 + 3 + 3 + 3 + 3 = 7 \cdot 3$
- d) $202 + 202 + 202 = 3 \cdot 202$

Practice 6: Write the following sums as multiplications. Use the symbol \times to denote multiplication.

- a) $1 + 1 + 1 = 3 \times 1$
- b) $4 + 4 + 4 = 3 \times 4$
- c) 8+8+8 = 3 × 8
- d) $108 + 108 + 108 + 108 = 4 \times 108$
